CV

Mende Gregor
Graphic Designer

E ghregx@gmail.com

Throughout my career, I have always tried to ensure that the passion and enthusiasm for my work has shone through. Despite my success as an independent designer, I have found that it is through a team that I have achieved my greatest potential.

I have learnt that having a platform to question and develop ideas harnesses greater creativity - although realising creative inspiration doesn't come without its obstacles! Obstacles such as time management and working to tight deadlines are important in any industry, but the foundations and biggest challenges of design lie in communication.

In all my work, I have relished these challenges and used them to fuel my ambition and maintain my own high standards.

LOGO DESIGN / Creation of a good logo often requires involvement from a marketing team teaming with the graphic design designer. Before a logo is designed, there must be a clear definition of the concept and values of the brand as well as understanding of the consumer or target group. These are some of Logos i have done.

In my art I choose my concept to match the target product ,
I also involve myself in the act of monitoring and participating in social conversations across all social media platforms. Involving gathering everything that is being said about your brand.
Social analytics help you undersand all the social media chatter and relate it to possible business changes.
